### Programming & Frameworks:

Java, JavaScript  
(Node.js, Express.js, React.js),  
MongoDB, Spring Boot, Camunda

### Web & Styling:

HTML, CSS, Tailwind CSS

### Tools & Platforms:

Git, GitHub,  
Agile/Scrum

### Soft Skills:

Problem-Solving,  
Team Collaboration, Adaptability,  
Communication

## Summary

I build full-stack applications that solve real problems for users and businesses with a focus on usability and reliability.

## Experience

### Proprietor

October 2025 – Present

Premove Solutions, Raipur

- A collaborative tech studio, delivering innovative solutions across fleet management, compliance automation, B2B platforms, crafting diverse solutions for modern businesses..
- Built a cross-platform fleet management app and is piloted by **Re Sustainability Ltd (Ramky Group)**. Automated vehicle tracking & analytics, cutting manual coordination time with **real-time** reporting.

### Software Engineer Intern

May 2025– July 2025

Accenture, Bengaluru

- Built REST APIs and automated workflows in Java Spring Boot & Camunda, improving reliability and reducing manual monitoring.

## Projects

### Premove.App (Premove Solutions)

Fleet Management SaaS Platform

Tech: React.js, Ionic, Firebase

- Designed & deployed real-time fleet tracking with live driver analytics.
- Integrated CI/CD & Firebase Cloud Functions for automated operations.

### API Workflow Prototype (Accenture)

Backend Automation Project

Tech: Java, Spring Boot, Camunda

- Automated API issue routing & monitoring workflows.
- Linked ServiceNow for auto-ticketing, reducing manual triage by **40%**.

### Premove Solutions Projects

Shreejee Automobiles, Capital Diesels, SmartGST Suite, MM Agri

Tech: React.js, Next.js, Node.js, JavaScript, TypeScript, Firebase

- Delivered 7+ production-grade applications improving client visibility & business workflow.
- Integrated Firebase, SEO, and responsive UI for performance-driven deployments.
