Architecture & Tools: Git, GitHub Actions (CI/CD), Camunda, ServiceNow, ITIL workflows, SDLC
Core Technologies: JavaScript, TypeScript, Java, React.js, Next.js, Node.js, Spring Boot
Cloud & Databases: Firebase, GCP, MongoDB, Vercel, Cloudflare

EXPERIENCE

Freelance Consultant *Oct 2025 - Present*
Technical Project Lead Raipur, India
- Headed a cross-functional 5-member team to deliver 7+ B2B software solutions, managing the end-to-end project lifecycle from initial client consultation to final deployment.
- Translated complex business requirements into actionable technical roadmaps, successfully converting clients and driving over INR 3 Lakhs in project revenue within 6 months.
- Directed the pilot launch of a fleet management application (premove.app) for Re Sustainability Ltd., aligning product features with stakeholder needs to significantly reduce manual coordination time.

Gemini Outreach Program *Sep 2025 - Dec 2025*
Google Student Ambassador Raipur, India
- Orchestrated campus-wide marketing campaigns and educational workshops, serving as the primary liaison between Google's outreach team and the student community.
- Drove product adoption metrics by executing strategic community-building initiatives, successfully achieving KPI targets by activating over 500 Gemini AI trials.

Accenture *May 2025 - July 2025*
Software Engineer Intern Bengaluru, India
- Collaborated with cross-functional teams in an Agile environment to map, optimize, and automate business workflows utilizing Java Spring Boot and Camunda.
- Streamlined IT service management processes by integrating backend workflows with ServiceNow, improving issue routing efficiency and auto-ticketing accuracy.
- Identified process bottlenecks and implemented robust monitoring solutions, effectively reducing manual triage requirements by 40% and accelerating incident resolution times.

PROJECTS

Premove.App (SaaS Product Lifecycle) *Oct 2024 - Present*
- Managed the end-to-end product development of a real-time fleet tracking platform, prioritizing feature requests, UI/UX design, and deployment architecture based on core business objectives.
- Facilitated iterative agile development using React.js, Node.js, and CI/CD pipelines to ensure rapid delivery of driver analytics.

B2B Client Projects (Premove Logs, MM Agri, Shreejee) *2025*
- Scoped project requirements, negotiated deliverables, and managed client expectations to ensure on-time delivery of responsive web applications.
- Overseen technical implementation utilizing Next.js, TypeScript, and Firebase to ensure SEO optimization and scalable database architectures.

EXTRACURRICULARS & ACHIEVEMENTS
